# Stockholm Executive Board Meeting

Tuesday, 24 April 2007

Last Updated Tuesday, 24 April 2007

IFATSEA's Executive 2007 - Stockholm

Well IFATSEA's 2007 interim executive board meeting is over.....and what a meeting!

First of all, our most sincere thanks to our gracious host in Sweden, SIF for the organization,

and in particular to Kjell, Knut and Susan for all the hard work.

Coming out of a very busy but fruitfull SESAR meeting, some of us wondered if it could get better,....well it did!

The renewed IFATSEA executive board met with an overloaded agenda....but we are all used to that by now and the new challenges presented by the SESAR project

were analysed and IFATSEA's strategy outlined, as ever taking a global view of this projects impact ( oportunity ) on ATSEP,

The Next-Gen Project on the other side of the Atlantic, involving many other countries worldwide shows that our view has indeed to be global on this issue.

It is also a matter of great satisfaction to have the oportunity to have Denmark, Norway, Finland, Sweden and Island all present.

...next, a Nordic Regional meeting.....IFATSEA's European Regional Director would be Happy!
