

SESAR participation

Sunday, 16 July 2006

Last Updated Thursday, 10 August 2006

IFATSEA is participating in the SESAR definition phase document development.

Under the coordination of IFATSEA Vp Theodore Kiritsis, the participation in the ongoing meetings is being assured by Heinz Wipf, Carlos Viegas and Filippo Tomaselo.

Carlos Viegas will setup a Eurogroup support team to help review the many documents being produced and also to develop ATSEP specific content for these documents , which otherwise would not be there.

Please click on read more below for full text.

The official web site with full information on SESAR is available through link :<http://www.sesar-consortium.aero/phase2.php>

The working documents are available in our document library at Single European Sky/ SESAR.

The forum for all discussions is Eurogroup/ SESAR.

Theodore Kiritsis and Carlos Viegas have both participated in the first two meetings and full reports and strategic appraisal documents are at the document center.
